

Encouraging students **HOW** to think.

— **THE THINK TANKS** FOR GRADES 1-6 —

THE THINK TANK
Computation and
Number Sense

THE THINK TANK
Thinking Mathematically
and Problem Solving

THE THINK TANK
Measurement and
Geometric Thinking

...an excellent resource

“*Think Tanks* are an excellent resource to help me meet the needs of my heterogeneous classroom. They are self-directed, easy for kids to monitor their own progress, and provoke children’s curiosity. They help with that ‘I’m finished, what do I do now?’ time as well as make an excellent choice during centers time.”

CHRIS NATALE

Math Coordinator

Manorhaven School
Port Washington, New York

Place counters on pairs of numbers that **add to 10**.

Which number is **not** covered?

Coloca contadores sobre los pares de números que **sumen 10**.

¿Cuál número **no** está cubierto?

A

B

C

D

Clues

- Noah is the **tallest**.
- Andre is the **shortest**.
- Carmen is standing **next** to Andre.
- Peta is standing **between** Carmen and Noah.

A is _____ B is _____ C is _____ D is _____

A

B

C

D

Pistas

- Noah es **el más alto**.
- Andre es **el más bajo**.
- Carmen está **junto** a Andre.
- Peta está **entre** Carmen y Noah.

A es _____ B es _____ C es _____ D es _____

Use all of the numbers on the sign to complete the story.

The story must make sense.

One warm day, Antonio cycled ^{a.} km to the park.

The temperature was about ^{b.} °C. Almost ^{c.} hour,
or ^{d.} minutes later, Max arrived at the park.

The boys played basketball for more than an
hour, or ^{e.} minutes.

Usa todos los números en el cartel para completar la historia.

La historia debe tener sentido.

En un día caluroso, Antonio recorrió ^{a.} km en bicicleta en el parque. La temperatura era aproximadamente de ^{b.} °C. Casi ^{c.} hora, o ^{d.} minutos después, Max llegó al parque. Los niños jugaron básquetbol por más de una hora, o ^{e.} minutos.

Linda has more than 6 sports cards.

When she puts the cards in groups of 4, she has no cards left.

When she puts the cards in groups of 5, she has 2 cards left.

- What is the least number of sports cards Linda could have?
- Write how you figured it out.

Linda tiene más que 6 tarjetas de deportes.

Cuando ella pone las tarjetas en grupos de 4, no le sobran tarjetas.

Cuando ella pone las tarjetas en grupos de 5, le sobran 2 tarjetas.

- ¿Cuál es el menor número de tarjetas de deportes que puede tener Linda?
- Escribe cómo lo calculaste.

What **ARE** The Think Tanks?

The Think Tanks provide ready-to-use opportunities for students in grades 1–6 to apply learning, foster thinking skills, and increase procedural fluency.

What is **IN** The Think Tank?

There are three sets of *The Think Tanks* per grade level. Each box contains:

- 240 laminated problem cards
- English and Spanish language on each card
- a reproducible student progress chart
- key problems for student portfolios
- teachers' notes
- answer cards

How do I **USE** The Think Tank?

The flexible and powerful exercises in *The Think Tanks* are suitable for whole group, small group, or independent work.
