

FLUENCY: THE MISSING LINK FOR MULTIPLICATION AND DIVISION

NUMBER FACT STRATEGIES

ADDITION

- Count-on 1, 2 and 0
- Use doubles
- Make ten

SUBTRACTION

- Think addition

MULTIPLICATION

- Use tens (5s)
- Make generalizations (1s and 0s)
- Use doubling (2s, 4s and 8s)
- Build up/down (9s and 6s)

DIVISION

- Think multiplication

TEACHING SEQUENCE

- Introduce
- Reinforce
- Practice
- Extend

REINFORCE: Five and Tens Facts

Tens Or Fives

$2 \times 10 = \underline{\quad}$ $2 \times 5 = \underline{\quad}$	$3 \times 10 = \underline{\quad}$ $3 \times 5 = \underline{\quad}$	$7 \times 10 = \underline{\quad}$ $7 \times 5 = \underline{\quad}$	$4 \times 10 = \underline{\quad}$ $4 \times 5 = \underline{\quad}$	$2 \times 10 = \underline{\quad}$ $2 \times 5 = \underline{\quad}$
$1 \times 10 = \underline{\quad}$ $1 \times 5 = \underline{\quad}$	$5 \times 10 = \underline{\quad}$ $5 \times 5 = \underline{\quad}$	$8 \times 10 = \underline{\quad}$ $8 \times 5 = \underline{\quad}$	$2 \times 10 = \underline{\quad}$ $2 \times 5 = \underline{\quad}$	$6 \times 10 = \underline{\quad}$ $6 \times 5 = \underline{\quad}$
$5 \times 10 = \underline{\quad}$ $5 \times 5 = \underline{\quad}$	$7 \times 10 = \underline{\quad}$ $7 \times 5 = \underline{\quad}$	$3 \times 10 = \underline{\quad}$ $3 \times 5 = \underline{\quad}$	$8 \times 10 = \underline{\quad}$ $8 \times 5 = \underline{\quad}$	$9 \times 10 = \underline{\quad}$ $9 \times 5 = \underline{\quad}$
$9 \times 10 = \underline{\quad}$ $9 \times 5 = \underline{\quad}$	$2 \times 10 = \underline{\quad}$ $2 \times 5 = \underline{\quad}$	$6 \times 10 = \underline{\quad}$ $6 \times 5 = \underline{\quad}$	$7 \times 10 = \underline{\quad}$ $7 \times 5 = \underline{\quad}$	$3 \times 10 = \underline{\quad}$ $3 \times 5 = \underline{\quad}$
$7 \times 10 = \underline{\quad}$ $7 \times 5 = \underline{\quad}$	$4 \times 10 = \underline{\quad}$ $4 \times 5 = \underline{\quad}$	$9 \times 10 = \underline{\quad}$ $9 \times 5 = \underline{\quad}$	$1 \times 10 = \underline{\quad}$ $1 \times 5 = \underline{\quad}$	$8 \times 10 = \underline{\quad}$ $8 \times 5 = \underline{\quad}$

Cube A: 6, 5, 4, 3, 2, 1

Cube B: 9, 9, 8, 8, 7, 7

Times Tussle

20	50	25	50	10	30
70	30	10	90	45	80
35	40	25	40	15	45
80	15	50	100	90	35
45	25	20	40	50	100
45	25	30	20	30	15
70	60	35	60	20	40

REINFORCE: Double and Halve

Nice and Easy

30×3	50×3	70×3	90×3
30×4	50×4	70×4	90×4
30×6	50×6	70×6	90×6
30×7	50×7	70×7	90×7
30×8	50×8	70×8	90×8
30×9	50×9	70×9	90×9

Cube A: 15, 15, 25, 35, 45, 45

Cube B: 6, 8, 12, 14, 16, 18

PRACTICE: Double and Halve

Nice and Easy Too!

90	150	210	270
120	200	280	360
180	300	420	540
210	350	490	630
240	400	560	720
270	450	630	810

Name _____

Cut out the rectangle then use the doubling and halving strategy to help you complete the sentence below.

15 x 8 is the same as _____ x _____ = _____

MULTIPLICATION CHART

×	0	1	2	3	4	5	6	7	8	9
0	0	0	0	0	0	0	0	0	0	0
1	0	1	2	3	4	5	6	7	8	9
2	0	2	4	6	8	10	12	14	16	18
3	0	3	6	9	12	15	18	21	24	27
4	0	4	8	12	16	20	24	28	32	36
5	0	5	10	15	20	25	30	35	40	45
6	0	6	12	18	24	30	36	42	48	54
7	0	7	14	21	28	35	42	49	56	63
8	0	8	16	24	32	40	48	56	64	72
9	0	9	18	27	36	45	54	63	72	81

- Use tens (5s)
- Make generalizations (0s, 1s)
- Use doubling (2s, 4s, 8s)
- Build up/down (9s, 6s)

REINFORCE: Fours and Eights Facts

Do the *D*s

Cube A: 3, 4, 5, 6, 7, 8

Cube B: , , , , ,

CONNECT MULTIPLICATION AND SUBTRACTION

$15 \div \underline{\quad} = \underline{\quad}$

$12 \div \underline{\quad} = \underline{\quad}$

$12 \div \underline{\quad} = \underline{\quad}$

Tally

Tally

Cube A: 2, 3, 4, 2, 3, 4

Cube B: 5, 6, 8, 5, 6, 8

Directions for the Games

Tens or Fives

Focus:

Using tens facts to multiply by five

Materials:

2 cubes with the following configuration:

Cube A: 1, 2, 3, 4, 5, 6

Cube B: 7, 7, 8, 8, 9, 9

Game board

Each player will need a colored pencil or marker of a different color

Directions:

The winner is the first to build a winning sequence of four adjacent counters in a horizontal, vertical, or diagonal line, or to make a box of four.

How to Play:

Roll both cubes.

Choose to multiply the number on cube A or B by 10. Find that fact on the board and fill in the product for multiplying the chosen number by ten and by five. Four in any direction wins.

Some numbers appear more than once on the game board. Players must decide whether to build a winning sequence or block the other player.

If both possible numbers are not available, the player misses a turn.

Play continues until one player builds a winning sequence.

Times Tussle

Focus:

Multiplying numbers two to ten by five and ten

Materials:

3 cubes with the following configuration: cube A should be one color; B & C should be the same color as each other, but a different color than cube A.

Cube A: 5, 5, 5, 10, 10, 10

Cube B: 2, 3, 4, 5, 6, 7

Cube C: 5, 6, 7, 8, 9, 10

Each player will need 14 transparent counters (different color for each player)

Directions:

The winner is the first player to build a winning sequence four adjacent counters in a horizontal, vertical, or diagonal line.

How to Play:

Roll all cubes and choose Cube A and one other cube.

Multiply and cover the product. Four in row, any direction wins.

Some numbers appear more than once on the game board. You must decide whether to build a winning sequence or block the other player.

If both possible answers are not available, you miss a turn.

Play continues in turns until one player builds a winning sequence.

For ideas on how to bring out the mathematics in this game, see Fundamentals Purple, pp 28-31.

Do the Ds

Focus:

Use a doubling strategy to practice fours and eights facts.

Materials:

Do the Ds game board

One doubling cube labeled with DD on 3 faces (for double, double) and labeled with DDD on 3 faces (for double, double, double)

One cube labeled with numerals 3, 4, 5, 6, 7, 8

Four color counters for each player (a different color for each player)

Directions:

The winner is the player who is the first to place all four counters on the game board.

How to Play:

Player 1 rolls the cubes and follows the instruction, doubling the number two or three times.

The player claims the answer on the game board by covering it with a counter. If an answer is unavailable, the player misses a turn.

Each of the other players has a turn.

The first player to place all four counters on the game board is the winner.

Example:

Lily rolls 4 and DDD. She says, "Double 4 is 8, double 8 is 16, double 16 is 32. Four multiplied by 8 is 32."

Lily places her counter on the 32 and claims that space.

For ideas on how to bring out the mathematics in this game, see Fundamentals Purple (pp.52-53)

Connect Multiplication and Division

Focus:

Use multiplication to divide

Materials:

Two number cubes configured as follows:

Cube A: 2, 3, 4, 2, 3, 4

Cube B: 5, 6, 8, 5, 6, 8

Take or Tally Game board

Directions:

The first player to complete his/her side before receiving 5 tallies is the winner.

How to Play:

First player rolls both cubes.

Player writes the two numbers in one of the number sentences on his/her game board. The completed equation must be true.

If a true sentence cannot be made, the player makes a tally in the space provided at the bottom of the game board.

The first player to complete 6 equations before making 5 tallies is the winner.
