

CONTENTS

BOOK A	
MODULE 1	
1.1 Number: Representing quantities (up to ten)	6
1.2 Number: Writing numerals zero to nine	8
1.3 Number: Matching representations (up to ten)	12
1.4 Number: Representing quantities (11 to 20)	14
1.5 Number: Writing teen number names	18
1.6 Number: Representing teen numbers	20
1.7 Number: Making groups to show greater or less (up to 20)	24
1.8 Number: Working with position	26
1.9 Number: Reading ordinal number symbols	30
1.10 Number: Matching ordinal number names and symbols	32
1.11 Data: Reviewing yes/no graphs	36
1.12 Data: Creating and interpreting graphs	38
MODULE 2	
2.1 Addition: Reviewing concepts	44
2.2 Addition: Counting on, rather than counting all	46
2.3 Addition: Introducing the count-on strategy	50
2.4 Addition: Reinforcing the count-on strategy	52
2.5 Addition: Reviewing the think big, count small strategy	56
2.6 Addition: Using the commutative property	58
2.7 Addition: Extending the count-on strategy (within 20)	62
2.8 Addition: Introducing the doubles strategy	64
2.9 Addition: Reinforcing the doubles strategy	68
2.10 Time: Introducing on the hour (analog)	70
2.11 Time: Reinforcing on the hour (analog)	74
2.12 Time: Reading on the hour (digital)	76
MODULE 3	
3.1 Number: Naming groups of ten	82
3.2 Number: Writing tens and ones (without zeros)	84
3.3 Number: Writing tens and ones, and number names (without zeros)	88
3.4 Number: Writing tens and ones, and number names (with zeros)	90
3.5 Number: Writing tens and ones, and two-digit numerals	94
3.6 Number: Working with ten as a group	96
3.7 Number: Working with tens and ones (dimes and pennies)	100
3.8 Number: Solving puzzles	102
3.9 Length: Making direct comparisons	106
3.10 Length: Making indirect comparisons	108
3.11 Length: Counting non-standard units to measure	112
3.12 Length: Measuring with non-standard units	114
MODULE 4	
4.1 Subtraction: Reviewing concepts (take apart)	120
4.2 Subtraction: Reviewing concepts (take from)	122
4.3 Subtraction: Writing equations	126
4.4 Subtraction: Introducing the count-back strategy	128
4.5 Subtraction: Reinforcing the count-back strategy	132
4.6 Subtraction: Solving word problems	134
4.7 Addition/subtraction: Solving word problems	138
4.8 2D shapes: Analyzing shapes	140
4.9 2D shapes: Sorting shapes	144
4.10 2D shapes: Identifying shapes	146
4.11 2D shapes: Creating shapes	150
4.12 2D shapes: Composing shapes	152
MODULE 5	
5.1 Addition: Introducing the double-plus-1 strategy	158
5.2 Addition: Reinforcing the double-plus-1 strategy	160
5.3 Addition: Introducing the double-plus-2 strategy	164
5.4 Addition: Reinforcing the double-plus-2 strategy	166
5.5 Addition: Comparing all strategies	170
5.6 Number: Using a pan balance to compare quantities	172
5.7 Number: Comparing quantities (less than 100)	176
5.8 Number: Comparing two-digit numbers (place value)	178
5.9 Number: Comparing to order two-digit numbers	182
5.10 Number: Introducing comparison symbols	184
5.11 Number: Recording comparisons (with symbols)	188
5.12 Number: Comparing two-digit numbers (with symbols)	190
MODULE 6	
6.1 Subtraction: Identifying the parts and total	196
6.2 Subtraction: Exploring the unknown-addend idea	198
6.3 Subtraction: Identifying unknown addends	202
6.4 Subtraction: Introducing the think-addition strategy (count-on facts)	204
6.5 Subtraction: Reinforcing the think-addition strategy (count-on facts)	208
6.6 Subtraction: Introducing the think-addition strategy (doubles facts)	210
6.7 Subtraction: Reinforcing the think-addition strategy (doubles facts)	214
6.8 Common fractions: Identifying examples of one-half (length model)	216
6.9 Common fractions: Identifying examples of one-half (area model)	220
6.10 Common fractions: Identifying examples of one-fourth (length model)	222
6.11 Common fractions: Identifying examples of one-fourth (area model)	226
6.12 Common fractions: Reinforcing one-half and one-fourth (area model)	228

CONTENTS

BOOK B

MODULE 7

7.1	Number: Analyzing 100	244
7.2	Number: Writing three-digit numbers to 120 (without teens)	246
7.3	Number: Writing numbers and number names to 120 (without teens)	250
7.4	Number: Writing numbers and number names to 120 (with teens)	252
7.5	Number: Writing three-digit numbers to 120	256
7.6	Number: Writing two- and three-digit numbers to 120	258
7.7	Subtraction: Introducing the think-addition strategy (near-doubles facts)	262
7.8	Subtraction: Reinforcing the think-addition strategy (near-doubles facts)	264
7.9	Subtraction: Reinforcing all strategies	268
7.10	Time: Introducing half-past the hour (analog)	270
7.11	Time: Reading and writing half-past the hour (digital)	274
7.12	Time: Relating analog and digital	276

MODULE 8

8.1	Addition: Exploring combinations of ten	282
8.2	Addition: Using the associative property	284
8.3	Addition: Introducing the make-ten strategy	288
8.4	Addition: Reinforcing the make-ten strategy	290
8.5	Addition: Reinforcing the commutative property	294
8.6	Addition: Reinforcing all strategies	296
8.7	Equality: Reviewing concepts	300
8.8	Equality: Working with balance situations	302
8.9	Equality: Balancing equations	306
8.10	Data: Recording in a tally chart	308
8.11	Data: Collecting in a tally chart	312
8.12	Data: Interpreting a tally chart	314

MODULE 9

9.1	Addition: Extending the count-on strategy	320
9.2	Addition: Identifying one or ten greater or less (hundred chart)	322
9.3	Addition: Exploring patterns (hundred chart)	326
9.4	Addition: Any two-digit number and 1, 2, 3 or 10, 20, 30 (hundred chart)	328
9.5	Addition: Any two-digit number and a multiple of ten (hundred chart)	332
9.6	Addition: Two-digit numbers (hundred chart)	334
9.7	Addition: Introducing place-value methods	338
9.8	Addition: Two-digit numbers	340
9.9	Addition: One- and two-digit numbers (composing tens)	344
9.10	Addition: Two-digit numbers (composing tens)	346
9.11	Addition: Reinforcing place-value strategies (composing tens)	350
9.12	Addition: Solving word problems	352

MODULE 10

10.1	Subtraction: Writing related facts	358
10.2	Subtraction: Reinforcing related facts	360
10.3	Subtraction: Writing related equations (multiples of ten)	364
10.4	Subtraction: Writing related addition and subtraction facts	366
10.5	Subtraction: Writing fact families	370
10.6	Subtraction: Exploring the comparison model	372
10.7	Subtraction: Counting on and back	376
10.8	Subtraction: Decomposing a number to bridge ten	378
10.9	Subtraction: Solving word problems (with comparisons)	382
10.10	3D objects: Identifying and sorting objects	384
10.11	3D objects: Analyzing objects	388
10.12	3D objects: Creating objects	390

MODULE 11

11.1	Subtraction: Introducing the think-addition strategy (make-ten facts)	396
11.2	Subtraction: Reinforcing the think-addition strategy (make-ten facts)	398
11.3	Addition/subtraction: Reinforcing basic fact strategies	402
11.4	Addition/subtraction: Solving word problems (all facts)	404
11.5	Algebra: Counting in steps of two	408
11.6	Algebra: Counting in steps of five and ten	410
11.7	Algebra: Exploring growing and shrinking patterns	414
11.8	Money: Relating dimes and pennies	416
11.9	Money: Relating all coins	420
11.10	Money: Determining the value of a collection of coins	422
11.11	Money: Paying with coins	426
11.12	Money: Relating dollars, dimes, and pennies	428

MODULE 12

12.1	Number: Working with place value (hundred chart)	434
12.2	Number: Solving puzzles (hundred chart)	436
12.3	Number: Exploring the counting sequence to 120	440
12.4	Subtraction: Extending the count-back strategy	442
12.5	Subtraction: Exploring patterns	446
12.6	Subtraction: Multiples of ten from any two-digit number (hundred chart)	448
12.7	Subtraction: 1, 2, 3 or 10, 20, 30 from any two-digit number (hundred chart)	452
12.8	Subtraction: Two-digit numbers (hundred chart)	454
12.9	Capacity: Making direct comparisons	458
12.10	Capacity: Measuring with non-standard units	460
12.11	Mass: Making direct comparisons	464
12.12	Mass: Measuring with non-standard units	466
