

CONTENTS

BOOK A		
MODULE 1		
1.1	Number: Reviewing six-digit numbers	6
1.2	Number: Reading and writing seven-digit numbers	8
1.3	Number: Locating seven-digit numbers on a number line	12
1.4	Number: Comparing and ordering seven-digit numbers	14
1.5	Number: Reading and writing eight- and nine-digit numbers	18
1.6	Number: Working with millions expressed as fractions	20
1.7	Number: Rounding numbers with up to nine digits	24
1.8	Algebra: Investigating order with one operation	26
1.9	Algebra: Investigating order with two operations	30
1.10	Algebra: Working with expressions (without parentheses)	32
1.11	Algebra: Working with expressions (with parentheses)	36
1.12	Algebra: Working with expressions (with and without parentheses)	38
MODULE 2		
2.1	Multiplication: Reviewing the standard algorithm	44
2.2	Multiplication: Using the standard algorithm with three- and four-digit factors	46
2.3	Multiplication: Using the standard algorithm with two two-digit factors	50
2.4	Multiplication: Using the standard algorithm with two- and three-digit factors	52
2.5	Multiplication: Extending the standard algorithm	56
2.6	Multiplication: Solving word problems	58
2.7	Volume: Developing the concept	62
2.8	Volume: Analyzing unit cubes and measuring volume	64
2.9	Volume: Developing a formula	68
2.10	Volume: Finding the dimensions of prisms with a given volume	70
2.11	Volume: Composing and decomposing prisms	74
2.12	Volume: Solving real-world problems	76
MODULE 3		
3.1	Decimal fractions: Reviewing tenths and hundredths (area model)	82
3.2	Decimal fractions: Reviewing tenths and hundredths (number line)	84
3.3	Decimal fractions: Introducing thousandths	88
3.4	Decimal fractions: Reading and writing thousandths (without zeros and teens)	90
3.5	Decimal fractions: Reading and writing thousandths (with zeros and teens)	94
3.6	Decimal fractions: Recording in expanded form	96
3.7	Decimal fractions: Locating thousandths on a number line	100
3.8	Decimal fractions: Comparing and ordering thousandths	102
3.9	Decimal fractions: Comparing and ordering with unequal places	106
3.10	Decimal fractions: Rounding thousandths	108
3.11	Decimal fractions: Rounding with unequal decimal places	112
3.12	Decimal fractions: Interpreting results on a line plot	114
MODULE 4		
4.1	Common fractions: Reviewing equivalent fractions (related denominators)	120
4.2	Common fractions: Reviewing equivalent fractions (related and unrelated denominators)	122
4.3	Common fractions: Reviewing the relationship with mixed numbers	126
4.4	Common fractions: Converting improper fractions to mixed numbers	128
4.5	Common fractions: Converting mixed numbers to improper fractions	132
4.6	Common fractions: Solving word problems	134
4.7	Length: Converting between inches and feet	138
4.8	Length: Converting customary units	140
4.9	Capacity: Converting customary units	144
4.10	Mass: Converting customary units	146
4.11	Mass/capacity: Solving word problems (customary units)	150
4.12	Mass: Solving real-world problems on a line plot	152
MODULE 5		
5.1	Decimal fractions: Reviewing addition strategies (without composing)	158
5.2	Decimal fractions: Adding (with composing)	160
5.3	Decimal fractions: Using the standard algorithm to add (with composing)	164
5.4	Decimal fractions: Using the standard algorithm to add more than two addends	166
5.5	Decimal fractions: Subtracting tenths and hundredths	170
5.6	Decimal fractions: Using the standard algorithm to subtract	172
5.7	Decimal fractions: Subtracting tenths (decomposing ones)	176
5.8	Decimal fractions: Subtracting hundredths (decomposing tenths)	178
5.9	Decimal fractions: Subtracting (decomposing multiple places)	182
5.10	2D shapes: Identifying parallelograms	184
5.11	2D shapes: Exploring categories of quadrilaterals	188
5.12	2D shapes: Identifying categories of triangles	190
MODULE 6		
6.1	Common fractions: Making comparisons and estimates	196
6.2	Common fractions: Reviewing addition strategies (same denominators)	198
6.3	Common fractions: Adding (related denominators)	202
6.4	Common fractions: Adding (unrelated denominators)	204
6.5	Common fractions: Adding mixed numbers (related denominators)	208
6.6	Common fractions: Adding mixed numbers (unrelated denominators)	210
6.7	Common fractions: Adding mixed numbers with unrelated denominators (composing whole numbers)	214
6.8	Division: Reviewing strategies	216
6.9	Division: Analyzing partitioning strategies	220
6.10	Division: Three- and four-digit dividends and one-digit divisors (with remainders)	222
6.11	Division: Three- and four-digit dividends with divisors that are two-digit multiples of five or ten	226
6.12	Division: Three- and four-digit dividends and any two-digit divisor	228
STUDENT GLOSSARY AND TEACHER INDEX		234

CONTENTS

BOOK B

MODULE 7

7.1	Common fractions: Exploring strategies to subtract (same denominators)	244
7.2	Common fractions: Subtracting (related denominators)	246
7.3	Common fractions: Subtracting (unrelated denominators)	250
7.4	Common fractions: Subtracting mixed numbers (related denominators)	252
7.5	Common fractions: Subtracting mixed numbers (unrelated denominators)	256
7.6	Common fractions: Subtracting mixed numbers with unrelated denominators (decomposing whole numbers)	258
7.7	Common fractions: Reinforcing subtraction strategies (related and unrelated denominators)	262
7.8	Common fractions: Solving word problems involving mixed numbers	264
7.9	Number: Building a picture of one billion and beyond	268
7.10	Number: Working with exponents	270
7.11	Number: Exploring place-value patterns	274
7.12	Number: Representing whole numbers using exponents	276

MODULE 8

8.1	Common fractions: Reviewing multiplication by whole numbers	282
8.2	Common fractions: Relating unit fractions to division	284
8.3	Common fractions: Finding a fraction of a whole number (unit fractions)	288
8.4	Common fractions: Finding a fraction of a whole number pictorially (non-unit fractions)	290
8.5	Common fractions: Finding a fraction of a whole number symbolically (non-unit fractions)	294
8.6	Common fractions: Solving word problems involving multiplying with whole numbers	296
8.7	Common fractions: Multiplying two common fractions pictorially	300
8.8	Common fractions: Multiplying two common fractions symbolically	302
8.9	Common fractions: Multiplying whole numbers and mixed numbers	306
8.10	Common fractions: Multiplying common fractions and mixed numbers	308
8.11	Common fractions: Exploring multiplication by fractions less than, equal to, or greater than one	312
8.12	Common fractions: Solving word problems	314

MODULE 9

9.1	Common fractions: Relating fractions to division	320
9.2	Common fractions: Dividing a whole number by a unit fraction pictorially	322
9.3	Common fractions: Dividing a whole number by a unit fraction using multiplication	326
9.4	Common fractions: Solving word problems involving multiplication or division with a unit fraction	328
9.5	Common fractions: Dividing a unit fraction by a whole number pictorially	332
9.6	Common fractions: Dividing a unit fraction by a whole number using multiplication	334
9.7	Common fractions: Solving word problems involving unit fractions	338
9.8	Length: Converting metric units	340
9.9	Mass: Converting metric units	344
9.10	Capacity: Converting metric units	346
9.11	Length/mass/capacity: Solving word problems (metric units)	350
9.12	Mass/data: Interpreting a line plot to solve problems	352

MODULE 10

10.1	Decimal fractions: Multiplying by a whole number	358
10.2	Decimal fractions: Reinforcing strategies for multiplying by a whole number	360
10.3	Decimal fractions: Multiplying tenths by tenths	364
10.4	Decimal fractions: Multiplying with whole numbers using partial products	366
10.5	Decimal fractions: Multiplying two decimal fractions using partial products	370
10.6	Decimal fractions: Dividing whole numbers by decimal fractions	372
10.7	Decimal fractions: Dividing decimal fractions by whole numbers	376
10.8	Decimal fractions: Dividing decimal fractions by decimal fractions	378
10.9	Decimal fractions: Reinforcing the think-multiplication strategy to divide	382
10.10	Decimal fractions: Adjusting the divisor	384
10.11	Decimal fractions: Adjusting the dividend and divisor	388
10.12	Decimal fractions: Solving multiplication and division word problems	390

MODULE 11

11.1	Algebra: Reviewing number patterns	396
11.2	Algebra: Examining relationships between two numerical patterns	398
11.3	Algebra: Introducing the coordinate plane	402
11.4	Algebra: Relating tables to ordered pairs	404
11.5	Algebra: Representing patterns on coordinate grids	408
11.6	Algebra: Interpreting coordinate grids	410
11.7	Multiplication: Using the double-and-halve strategy to multiply dollars and cents	414
11.8	Multiplication: Using a nearby number to multiply dollars and cents	416
11.9	Multiplication: Reinforcing strategies to multiply dollars and cents	420
11.10	Perimeter: Solving word problems	422
11.11	Area: Solving word problems	426
11.12	Volume: Solving word problems	428

MODULE 12

12.1	Division: Recording steps (three- and four-digit dividends)	434
12.2	Division: Developing the standard algorithm	436
12.3	Division: Introducing the standard algorithm	440
12.4	Division: Working with the standard algorithm	442
12.5	Division: Working with the standard algorithm (with remainders)	446
12.6	Division: Investigating methods to divide by a two-digit multiple of ten	448
12.7	Division: Working with four-digit dividends and two-digit divisors	452
12.8	Division: Solving word problems (one- and two-digit divisors)	454
12.9	Division: Making estimates to solve problems	458
12.10	Division: Partitioning dollar-and-cent amounts	460
12.11	Division: Extending partitioning strategies to divide dollar-and-cent amounts	464
12.12	Division: Calculating unit costs to determine best buys (dollars and cents)	466

STUDENT GLOSSARY AND TEACHER INDEX
