

CONTENTS

BOOK A

MODULE 1

1.1	Number: Reviewing whole numbers	6
1.2	Number: Reviewing fractions	8
1.3	Number: Reviewing abbreviations for numbers greater than one million	12
1.4	Number: Using exponents greater than 2	14
1.5	Number: Introducing positive and negative numbers	18
1.6	Number: Interpreting the negative symbol	20
1.7	Number: Comparing and ordering positive and negative numbers	24
1.8	Number: Introducing absolute value	26
1.9	Number: Using the 1st and 2nd quadrants of the coordinate plane	30
1.10	Number: Using all quadrants of the coordinate plane	32
1.11	Number: Calculating distance on the coordinate plane	36
1.12	Number: Exploring reflections on the coordinate plane	38

MODULE 2

2.1	Algebra: Reviewing language and conventions	44
2.2	Algebra: Reviewing order of operations	46
2.3	Algebra: Order of operations involving exponents	50
2.4	Algebra: Order of operations involving common fractions and mixed numbers	52
2.5	Number: Reviewing factors and multiples	56
2.6	Number: Finding the least common multiple	58
2.7	Number: Finding the greatest common factor	62
2.8	Algebra: Using the distributive property	64
2.9	Addition/subtraction: Using the standard algorithm (decimal fractions)	68
2.10	Multiplication: Using the standard algorithm (one-digit whole numbers and decimal fractions)	70
2.11	Multiplication: Using the standard algorithm (two-digit whole numbers and decimal fractions)	74
2.12	Multiplication: Using the standard algorithm (decimal fractions)	76

MODULE 3

3.1	Ratio: Introducing ratio	82
3.2	Ratio: Building equivalent ratios pictorially	84
3.3	Ratio: Examining equivalence using tables	88
3.4	Ratio: Exploring ratios on the coordinate plane	90
3.5	Ratio: Calculating and identifying equivalent ratios	94
3.6	Ratio: Interpreting part-part and part-whole situations	96
3.7	Ratio: Solving word problems with part-part and part-whole situations	100
3.8	Division: Reviewing the standard algorithm	102
3.9	Division: Exploring remainders	106
3.10	Division: Terminating and repeating decimal fractions	108
3.11	Division: Adjusting to divide a whole number by a decimal fraction	112
3.12	Division: Adjusting to divide with decimal fractions	114

MODULE 4

4.1	Algebra: Writing expressions to match word problems	120
4.2	Algebra: Writing equations to match word problems	122
4.3	Algebra: Writing equations with two variables	126
4.4	Algebra: Evaluating expressions given the value of the variable	128
4.5	Algebra: Order of operations involving variables	132
4.6	Algebra: Solving equations given a set of possible values	134
4.7	Algebra: Reviewing patterns and rules	138
4.8	Algebra: Interpreting tables	140
4.9	Algebra: Investigating number patterns and rules	144
4.10	Algebra: Exploring different representations of patterns	146
4.11	Algebra: Identifying independent and dependent variables	150
4.12	Algebra: Backtracking to solve equations	152

MODULE 5

5.1	Division: Interpreting division situations	158
5.2	Division: Common fractions (same denominators)	160
5.3	Division: Common fractions (related denominators)	164
5.4	Division: Whole numbers by common fractions	166
5.5	Division: Whole numbers by common fractions (with remainders)	170
5.6	Division: Common fractions by common fractions (unrelated denominators)	172
5.7	Division: Consolidating strategies	176
5.8	Ratio: Comparing ratios in tables	178
5.9	Ratio: Comparing ratios in tables and graphs	182
5.10	Ratio: Using a given ratio when the total is known	184
5.11	Ratio: Using a given ratio when total is unknown	188
5.12	Ratio: Working with measurement	190

MODULE 6

6.1	Area: Exploring parallelograms	196
6.2	Area: Using a formula for parallelograms	198
6.3	Area: Exploring right triangles	202
6.4	Area: Using a formula for triangles with height inside	204
6.5	Area: Using a formula for triangles with height inside or outside	208
6.6	Area: Calculating the area of any quadrilateral	210
6.7	Area: Calculating the area of any polygon	214
6.8	Ratio: Developing the concept of rate	216
6.9	Ratio: Identifying rates	220
6.10	Ratio: Rates with whole numbers and fractions	222
6.11	Ratio: Working with rates in two directions	226
6.12	Ratio: Comparing rates	228

BOOK B

MODULE 7

7.1 Algebra: Simplifying expressions	244
7.2 Algebra: Simplifying expressions using the commutative and associative properties	246
7.3 Algebra: Simplifying expressions using the distributive property	250
7.4 Algebra: Simplifying expressions with more than one variable	252
7.5 Algebra: Introducing balance to solve addition equations	256
7.6 Algebra: Solving addition equations	258
7.7 Algebra: Solving subtraction equations	262
7.8 Algebra: Solving multiplication equations	264
7.9 Algebra: Solving division equations	268
7.10 Algebra: Solving word problems (addition and multiplication)	270
7.11 Algebra: Solving word problems (subtraction and division)	274
7.12 Algebra: Solving word problems (all operations)	276

MODULE 8

8.1 Ratio: Linking part-whole ratios to fractions	282
8.2 Ratio: Relating fraction representations of ratio	284
8.3 Ratio: Introducing percentage (area model)	288
8.4 Ratio: Consolidating percentage (number line model)	290
8.5 Ratio: Simple percentages of quantities	294
8.6 Ratio: Percentages of collections	296
8.7 Ratio: Percentages of numbers less than ten	300
8.8 Ratio: Using unit percentages	302
8.9 Ratio: Finding the whole given a part and the percentage	306
8.10 Division: Introducing the invert-and-multiply method (common fractions)	308
8.11 Division: Consolidating the invert-and-multiply method (common fractions)	312
8.12 Division: Consolidating strategies (common fractions)	314

MODULE 9

9.1 Algebra: Reviewing inequalities	320
9.2 Algebra: Showing inequalities on a number line	322
9.3 Algebra: Identifying the range of possible values for an inequality	326
9.4 Algebra: Working with inequalities	328
9.5 Statistics: Introducing statistics	332
9.6 Statistics: Identifying the mode	334
9.7 Statistics: Calculating the median	338
9.8 Statistics: Calculating the mean	340
9.9 Area: Using nets to calculate surface area of prisms	344
9.10 Area: Using nets to calculate surface area of pyramids	346
9.11 Area: Calculating surface area of prisms and pyramids	350
9.12 Area: Solving word problems	352

MODULE 10

10.1 Statistics: Measuring variability using mean and absolute deviation	358
10.2 Statistics: Measuring variability using quartiles and interquartile range	360
10.3 Statistics: Introducing box plots	364
10.4 Statistics: Reinforcing box plots	366
10.5 Statistics: Introducing histograms	370
10.6 Statistics: Analyzing and creating histograms	372
10.7 Statistics: Working with histograms	376
10.8 Volume: Reviewing volume	378
10.9 Volume: Rectangular-based prisms with one fractional side length	382
10.10 Volume: Rectangular-based prisms with two fractional side lengths	384
10.11 Volume: Rectangular-based prisms with three fractional side lengths	388
10.12 Volume: Solving word problems	390

MODULE 11

11.1 Ratio: Introducing ratios with three parts	396
11.2 Ratio: Using ratios with three parts	398
11.3 Ratio: Comparing ratios with three parts	402
11.4 Ratio: Solving word problems with three-part ratios	404
11.5 Ratio: Resizing 2D shapes to a given percent	408
11.6 Ratio: Examining similar rectangles	410
11.7 Ratio: Examining similar triangles	414
11.8 Ratio: Examining percentage changes of area	416
11.9 Ratio: Working with percentage changes of area	420
11.10 3D objects: Analyzing pyramid nets	422
11.11 3D objects: Analyzing prism nets	426
11.12 3D objects: Creating prism nets	428

MODULE 12

12.1 Ratio: Introducing percentages greater than 100%	434
12.2 Ratio: Consolidating percentages greater than 100%	436
12.3 Ratio: Using complementary percentages	440
12.4 Ratio: Using percentages greater than 100%	442
12.5 Algebra: Simplifying expressions involving percentages	446
12.6 Algebra: Solving word problems involving percentages	448
12.7 Algebra: Solving equations with percentages and variables	452
12.8 Algebra: Solving word problems with percentages and variables	454
12.9 Algebra: Generating and graphing variables	458
12.10 Algebra: Generating and graphing variables (non-equivalent ratios)	460
12.11 Algebra: Generating and graphing variables (approximate ratios)	464
12.12 Algebra: Generating and graphing variables (non-linear)	466
