

<b>MODULE 1</b>		
1.1	Number: Creating groups of objects	1
1.2	Number: Creating groups of objects to match pictures	5
1.3	Number: Creating groups of pictures to match numerals (1 to 5)	9
1.4	Number: Working with 1 to 5	13
1.5	Data: Sorting into two categories	15
1.6	Data: Making yes/no graphs	19
<b>MODULE 2</b>		
2.1	Number: Creating groups to match numerals (6 to 10)	23
2.2	Number: Matching quantities to numerals	25
2.3	Number: Writing numerals 1 to 6	29
2.4	Number: Writing numerals 7 to 10, and 0	33
2.5	Number: Introducing the number track	37
2.6	Number: Writing numbers just before and just after (up to 10)	39
<b>MODULE 3</b>		
3.1	Number: Making groups that have more or fewer (up to 10)	41
3.2	Number: Identifying groups that have more or fewer (up to 10)	43
3.3	Number: Comparing numbers (1 to 10)	45
3.4	Length: Making comparisons	49
3.5	Mass: Making comparisons	51
3.6	Capacity: Making comparisons	53
<b>MODULE 4</b>		
4.1	Number: Writing number names (10, 7, 6, 3, 0)	55
4.2	Number: Writing number names (5, 9, 4, 8, 2, 1)	57
4.3	Number: Representing 0 to 10	59
4.4	Number: Working with benchmarks of five (five-frame)	63
4.5	Number: Working with benchmarks of ten (ten-frame)	65
4.6	Number: Working with unstructured arrangements	67
<b>MODULE 5</b>		
5.1	Equality: Introducing the idea of balance	69
5.2	Equality: Identifying an unknown part in balance situations	71
5.3	Equality: Identifying two parts that balance a total	73
5.4	Equality: Developing the language of equality	75
5.5	Position: Using spatial language	77
5.6	Position: Identifying left and right	81
<b>MODULE 6</b>		
6.1	Addition: Adding two groups (put together)	83
6.2	Addition: Writing equations (put together)	85
6.3	Addition: Adding two groups (add to)	87
6.4	Addition: Writing equations (add to)	89
6.5	Addition: Relating concepts	91
6.6	Addition: Developing fact fluency	93

# CONTENTS

## MODULE 7

7.1	Number: Matching representations for 14, 16, and 17	95
7.2	Number: Matching representations for 19, 18, and 15	97
7.3	Number: Matching representations for 13, 12, 11, and 20	99
7.4	Number: Analyzing teen numbers	101
7.5	3D objects: Sorting objects	103
7.6	3D objects: Identifying objects	107

## MODULE 8

8.1	Subtraction: Representing situations (take apart)	111
8.2	Subtraction: Writing equations (take apart)	113
8.3	Subtraction: Representing situations (take from)	115
8.4	Subtraction: Writing equations (take from)	117
8.5	Subtraction: Relating concepts	119
8.6	Subtraction: Developing fact fluency	121

## MODULE 9

9.1	Number: Making groups that have one more or one fewer (up to 20)	123
9.2	Number: Writing numbers that are one greater or one less (up to 20)	125
9.3	Number: Working with position (up to 20)	127
9.4	Number: Solving number puzzles	129
9.5	3D objects: Identifying and using objects	131
9.6	3D objects: Sorting 2D shapes and 3D objects	133

## MODULE 10

10.1	Addition: Identifying two parts that total 10	137
10.2	Addition: Decomposing numbers (up to 10)	139
10.3	Addition: Exploring the commutative property	141
10.4	Addition: Introducing the think big, count small strategy	143
10.5	2D shapes: Identifying shapes	145
10.6	2D shapes: Analyzing attributes of shapes	149

## MODULE 11

11.1	Addition/subtraction: Interpreting word problems	151
11.2	Addition/subtraction: Solving word problems (act out)	153
11.3	Addition/subtraction: Solving word problems (draw pictures)	155
11.4	Addition/subtraction: Solving word problems (write equations)	157
11.5	2D shapes: Drawing shapes	159
11.6	2D shapes: Creating shapes	161

## MODULE 12

12.1	Money: Identifying coins	165
12.2	Money: Showing groups of coins	167
12.3	Money: Identifying coin values	171
12.4	Money: Working with coins	175
12.5	Patterns: Continuing repeating patterns	179
12.6	Patterns: Identifying missing elements	181
