

State Funding Opportunities

New Jersey

Preschool Expansion and Start-Up Funding: More than \$11.4 million recently allocated to 16 New Jersey school districts to create or expand their preschool programming during the 2022–2023 school year has enabled the addition of 1,081 full-day, high-quality preschool seats.

How ORIGO aligns with NJ's Preschool Expansion Funds

- ORIGO supports at-risk and low-income children by giving all children, regardless of family incomes, the opportunity and support to achieve early childhood math standards.
- ORIGO provides students with research-based core mathematics content that align with the goals of early childhood mathematics concepts.

ADDITIONAL INFORMATION FOR ORIGO REFERENCE:

Legislation to watch: [Assembly Bill 165](#): Establishes “New Jersey STEM Scholars Grant Pilot Program” in Department of Education.

- This bill would establish a four-year “New Jersey STEM Scholars Grant Pilot Program,” which would provide grants to assist school districts in enhancing STEM education programs for students and increasing access to STEM education programs. The program would provide competitive grants to school districts for them to build upon existing STEM education programs or create new education programs in three concentration areas: project-based learning, afterschool STEM, and out-of-school STEM.
