

# State Funding Opportunities

## Pennsylvania

ORIGO's researched-based core and supplemental math curriculum can be used as an additional resource to support [Senate Bill 123](#).

- ORIGO's core curriculum, Stepping Stones, provides teacher and student materials for effective mathematics planning, instruction, assessment, differentiation, and intervention. Stepping Stones, received ALL GREEN ratings from EdReports.org, an independent nonprofit committed to ensuring all students have access to high-quality instructional material. Additionally, an external independent evaluation of the Stepping Stones Math curriculum found that with sufficient implementation support the core program had a significant positive effect on mathematics proficiency.
- In addition, ORIGO Education's supplementary learning resources are designed to support Tier 2 and Tier 3 intervention to help teachers develop students' mathematical understanding. These products have also demonstrated research-proven effectiveness. A case study of students using the company's math fact practice supplementary product, the Book and Box of Fact Strategies, showed significant gains in math fact speed, accuracy and fluency.

Funds from Pennsylvania's [Ready to Learn Block Grant](#) can be used for ORIGO's professional learning offering. ORIGO provides a tailored comprehensive professional development program that is based on the latest research on mathematics teaching and learning, as well as implementation science, to provide teachers support in best practice math instruction. ORIGO will collaborate with teachers and principals to provide data-driven, sustained professional learning that increases student achievement.

## State Funding & Opportunities Pennsylvania

Funds from Pennsylvania's [Pre-K Counts Grant](#) can be used for ORIGO's research-based core and supplementary math curriculum. ORIGO supports at-risk and low-income children by giving all children, regardless of family incomes, the opportunity and support to achieve early childhood math standards. ORIGO provides students with research-based core mathematics content that align with the goals of early childhood mathematics concepts.

### ADDITIONAL INFORMATION FOR REFERENCE:

- [Ready to Learn Block Grant](#): The purpose of the Ready to Learn Block Grant is to enhance learning opportunities for students and provide resources for schools to innovate at the local level. The 2023–2024 Ready to Learn Block Grant appropriation is \$295,000,000. Acceptable uses of funds that align with ORIGO's offering include “providing programs for professional education in math, science and literacy-specific curriculum and instructional strategies, analysis of student achievement data, exemplary practices, using technology and curriculum alignment.”
