

How Many Animals?

A book about Counting Groups

Aim

How Many Animals? introduces counting groups from one to five. Students explore concrete and pictorial materials to count groups of objects.

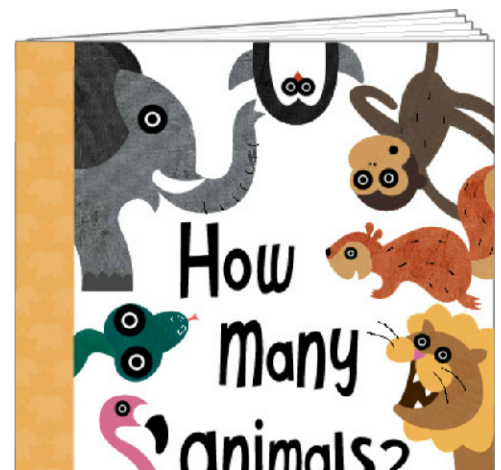

These whole-class/ large group and small group activities provide students with the opportunity to:

- listen to a story about counting groups
- listen to the accompanying story tune
- use materials to explore counting groups
- use the teaching tool to represent quantity
- represent quantities using objects in the environment

Activities

To access the teacher's notes for these activities, select the file from the Resources tab at the top right of the screen.

1. Listening to the story
